Application No. 09/376,461
Filed: August 18, 1999
Attorney Docket No.: 1128.006A
For: SKYLIGHT FLASHING

:
: DECISION ON PETITION
: TO INVOKE SUPERVISORY
: AUTHORITY
: UNDER 37 CFR 1.181
:

This is in response to applicants' renewed petition to invoke supervisory authority under 37 CFR 1.181 that was filed on February 23, 2004 requesting review of whether or not prosecution can be properly reopened after a Board decision reversing all of the previous rejections on appeal.

The petition is **DISMISSED AS MOOT**.

A review of the file reveals that a Notice of Allowance was mailed on October 3, 2006 and that the instant application issued as United States Patent No. 7,159,364 on January 9, 2007. Further, prior to the Notice of Allowance, there was a Non-Final Rejection mailed July 17, 2006 that included an indication of allowable subject matter and a response by applicant on July 20, 2006 incorporating the indicated subject matter into the sole remaining independent claim.

In view of the above, applicant's petition is moot and is hereby dismissed.

Any questions regarding this decision should be directed to Supervisory Patent Examiner Daniel Stodola at (571) 272-7087.
